Soft Skills:	Versatile, Persuasive, Proactive, Inquisitive

PROJECTS

Workout Planner Web Application (Frontend Development Project)   GitHub | Live Application

Description – Developed a responsive workout planner web application using **React** and **Tailwind CSS**, with **Firebase-based authentication**. The application generates personalized workout routines and diet suggestions based on user fitness goals, workout frequency, and activity level, and was deployed on **Vercel**.

GDG Seminar Registration Portal (UI/UX Design Project)   Figma Link

Description – Designed a clean and user-friendly registration portal for a **GDG open-source seminar** using **Figma**, emphasizing clarity, structured form flow, and intuitive navigation.
